

Light-Duty Heat Shrink Tape

Heat shrink tape is a polyethylene backed tape with very good adhesion which is used for repairing holes in poly film, taping on zipper access doors, and taping pleats on the shrink wrap. The light-duty heat shrink tape is a low-cost alternative to our standard heat shrink tape and works in the same manner. *Does not contain UV Inhibitors*

It may leave an adhesive residue after long term usage. Available in white with pinked (serrated) edges in 2", 2.5", and 4" widths. Available in white with standard edging in 1.5", 2", 2.5", and 4". All rolls are 180' long.

Composition

Backing: Polyethylene, colored
Adhesive: Synthetic rubber based, clear

Properties

Total Thickness	7.5 mil (0.178 mm)
Tensile Strength	436 lb./in. (n/100mm)
Elongation	75%
Adhesion to Steel	67 oz./in. (60 n/100mm)
Adhesion to Backing	36 oz./in. (35 n/100mm)
Waterproof	6.2 (0.4)
